AGENT FOR JUDSON'S PATENT GOVERNOR.

WILSON'S
Adjustable Chair,

[PATENTED 1871.]

The Novelty of the Age!

AN INGENUOUS PIECE OF MECHANISM WHICH CAN BE ARRANGED IN

THIRTY POSITIONS,

AND CONVERTED INTO AN

Invalid, 'Parlor, Library, Reading, Writing, Reclining, Smoking, Student's, Physician's, and Dentist's Chair, or a Lounge, Bed and Child's Crib and Swing.

The Framework of this Chair is entirely of Wrought Iron, beautifully japanned and bronzed; is light, yet strong and durable, cannot get out of order, and so simple in its working that a child can adjust it.

The Upholstering is in the very best style of the art, which renders it a very beautiful and attractive article of furniture for the Parlor, Library or Chamber, as well as one of luxurious ease and comfort.

Invalids will find this Chair the best ever invented for their use. It can easily be changed to any required position, from upright to reclining, and without trouble converted into a bed with mattress all complete. In diseases which prevent the patient from lying in a recumbent position it is just the thing needed, and in all cases it is a very agreeable change from the weariness and fatigue of the couch so trying in a long continued illness.

As a Reading Chair there is nothing like it, for smoking it is without a rival, and for writing there is a portable folding and adjustable Desk, which may be detached when not in use; in fact, it is adapted to a variety of purposes, and gives universal satisfaction wherever used.

Circulars with explanatory diagrams sent free on application. Orders by mail, or otherwise, receive prompt attention, and Chairs carefully and securely packed, shipped to any address on receipt of price, or forwarded by express, payable on delivery.
